Cleansing Made Simple

Vernacare Solutions on the NHS Skin Cleansing Framework

Understanding the New NHS Skin Cleansing framework and why it matters

Effective February 2026, the NHS Skin Cleansing Framework introduces a more consistent, compliant, and clinically driven approach to sourcing patient hygiene products. It empowers Trusts to make informed choices with confidence backed by quality assurance and procurement clarity.

Vernacare is proud to be included in this framework, reaffirming our position as a trusted partner in patient care. Our Conti[®] brand has long been recognised for delivering effective skin cleansing solutions. We are proud to have been awarded the highest quality marks by the NHS SC framework, a testament to the reliability and clinical integrity of our products.

As part of this transition:

We will be replacing **Conti[®] Standard (CPP100NHS)** and **Conti[®] Soft (CSP100NHS)** with our **NEW Conti[®] Viscose (CVW100NHS)**, a forward-thinking solution designed to meet evolving sustainability goals without compromising on patient comfort or wipe performance.

CONTI[®] VISCOSE

CONTI[®] MACERATABLE

Absorbs **over 3 times** more liquid than CPP Conti[®] Standard +
Absorbs approximately **1.5 times** more liquid than CSP Conti[®] Soft +

You'll continue to have uninterrupted access to our trusted **Conti[®] Maceratable Dry Wipes (CMW075NHS)**.

CONTAINS CELLULOSE
