INTRODUCING

Vaginal Speculums

Unbreakable* Vaginal Speculums. Designed for professionals.

We believe every speculum used for gynaecological procedures should be unbreakable*, as standard.

Vernacare Surgical Solutions are proud to manufacture the UK's widest range of unbreakable* vaginal speculums, offering products for most clinical applications which are easy to use, safe and comfortable.

Confidence and comfort every time

Safe – unbreakable* designs
Cost-effective – good, better, best and specialist options
Clinically clean† & sterile options available
Comfortable – Range of sizes, reassuring to patient and practitioner
Single-use – No cross-contamination
Made in UK – Lower carbon footprint production

Market leading single-use speculums

Developed and manufactured in the UK with extensive input from professionals, each product feature offers improved patient comfort and safety; helping to reduce patient anxiety and enhancing practitioner confidence.

Explore our range of unbreakable* vaginal speculums

We provide a range of speculums to suit all budgets and meet practitioners' requirements across a range of gynaecological procedures. All our speculums come in a range of sizes to give practitioners the best choice for optimal patient comfort.

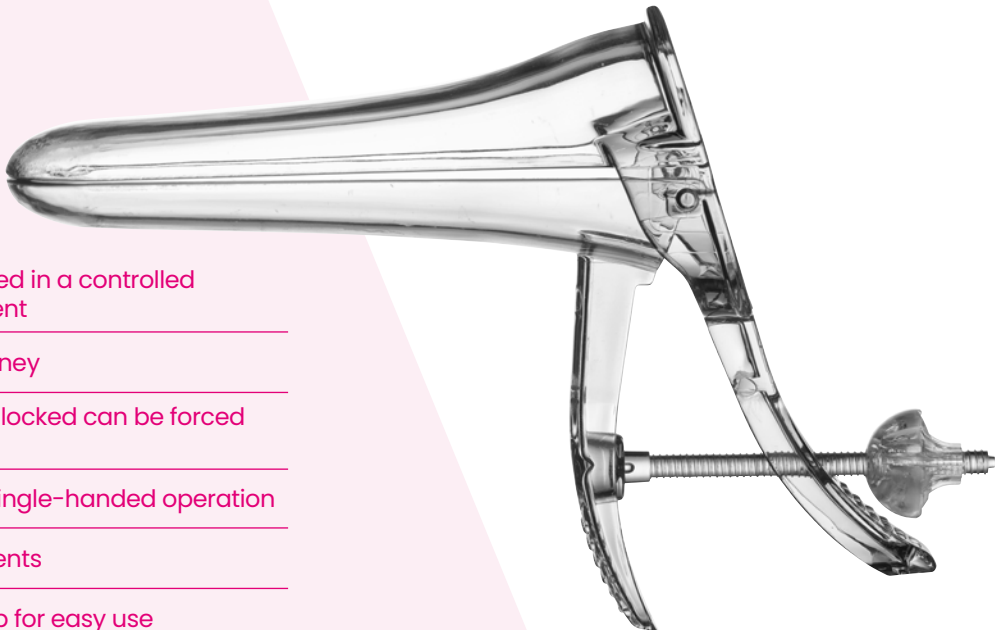

From our price competitive clinically clean† option to premium sterile instruments and specialist retractors, our comprehensive range will have a suitable solution for your needs.

*Our speculums are manufactured from advanced polymers which are unbreakable in normal use, independently tested by SMTL.
†Packed in a UK manufacturing clean environment.

Ultraspec[®] Screening

Clinically clean[†] unbreakable*
speculum combining safety,
comfort and value for money.

Ultra**spec**[®] Retractor

**Sterile, unbreakable*
speculum with a sidewall
retractor to ensure
unobstructed view of cervix.**

Unbreakable* UltraSpec[®] speculum with UltraSpec[®] Sidewall Retractor

Unobstructed view of the cervix – fewer patients need referrals & streamline patient care

Easy and gentle displacement of vaginal sidewall without removing the speculum

Cost saving – use one speculum for inspection and treatment

Time saving – simply insert the retractor instead of aborting the procedure

Patient protection – designed to reduce incidences of inadvertent sidewall burns during cervical procedures

INTRODUCING

Maternity Absorbents

Instrapac® Maternity Pads

Vernacare Maternity Pads are high quality absorbent pads designed for comfort and optimum performance. They are designed for post-partum patients or following gynaecological operations and are available in three sizes.

Each pad consists of a thick, high absorbency fluff pulp core in a carrier tissue, with a polyethylene liner on the reverse to prevent strike-through and a soft non-woven cover.

A press-on style with adhesive strips is offered in addition to the standard version for convenience of use.

- Excellent absorbent capacity for maximum confidence
- Soft cover for optimum comfort
- Sterile pads individually packed in easy to open pouches
- Option of convenient press on style
- Maternity pad size refers to the thickness and therefore relative absorbency of the pad

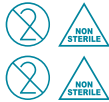

Pad Size	Nominal Thickness
1	10mm
2	18mm
3	20mm

Product Code	NPC Code	Name	Size	Nominal Thickness	Quantity per Sales UOM
3801	FFK251	Instrapac® Maternity Pads Press On – Non-Sterile	1	10mm	288 (12's x 24)
3812	EOA011	Instrapac® Maternity Pads – Non-Sterile	2	18mm	288 (12's x 24)

INDIVIDUAL STERILE PACKS

3800	FFK201	Instrapac® Maternity Pads Press On – Sterile	1	10mm	300 (50's x 6)

6103	FFK254	Instrapac® Maternity Pads 2M Unlooped – Sterile	2	18mm	300 (50's x 6)
6104	FFK253	Instrapac® Maternity Pads 3M Unlooped – Sterile	3	20mm	300 (50's x 6)

cottontails® Shaped Breast Pads

Product Code:
3681
PIP Code:
040-1190
Quantity Per Sales UOM:
240 (6 packs x 40)

Vernacare cottontails® breast pads are specially designed for use in late pregnancy and after the baby’s birth, when it is common to experience breast leakage. Softly shaped and extra absorbent, the pads are disposable and provide effective protection against the staining of clothes.

High Performance

Vernacare cottontails® breast pads consist of a high absorbency, non-chlorine bleached fluff pulp core to take care of leaking breast milk. This helps to prevent cracking, soreness and irritation by keeping moisture away from delicate skin. Next to the skin, the inner face is covered in a soft, quilted look ‘stay dry’ non-woven cover for maximum comfort, whilst the backing features a special moisture proof material to prevent strike-through and protect clothing.

Discreet and Comfortable

The pads are specially shaped to the contour of the breast and have super soft edges to remain highly discreet, even under close fitting clothing. The moisture proof backing also grips the inside of the bra and together with self adhesive tape, prevents slippage and keeps the pad in place between feeds to offer optimum confidence and comfort during use.

Convenient and Hygienic

Pads are disposable and designed to be changed regularly to maintain hygiene and prevent soreness by keeping the nipples dry.

They are an excellent alternative to reusable pads, which can cause irritation to the wearer due to washing powder allergies.

Packed in 40’s, the pads can be conveniently used and disposed of as necessary, depending on the rate of leakage.

Vernacare cottontails® breast pads packaging is specially designed to be displayed in-store in portrait or landscape format, allowing shelf space to be optimised as required.

- Ideal for use during late pregnancy and whilst breast feeding
- Softly shaped to the contour of the breast for maximum comfort
- Highly absorbent to keep nipples dry and help prevent soreness and irritation
- Highly discreet under clothing for optimum confidence
- Self adhesive tape to prevent slippage
- Non-slip, moisture proof backing to prevent staining of clothes
- Exclusive packaging for effective on shelf display
